RULES OF THE COMMITTEE ON VETERANS' AFFAIRS

Rule No. I— *General Provisions*

The Rules of the House are the rules of the committee and subcommittees so far as applicable, except that a motion to recess from day to day is a motion of high privilege in committees and subcommittees. Each subcommittee of the committee is a part of the committee, and is subject to the authority and direction of the committee and to its rules so far as applicable.

Rule No. II— *Meetings*

(a) The regular meeting day for the full committee shall be at 10:00 A.M. on the second Tuesday of each month, and at such other times and in such places as the chairman may designate; however, a regular Tuesday meeting of the committee may be dispensed with by the chairman.

(b) The chairman may call and convene, as he considers necessary, additional meetings of the committee for the consideration of any bill or resolution pending before the committee or for the conduct of other committee business. The committee shall meet for such purpose pursuant to the call of the chairman.

(c) (1) Each meeting for the transaction of business, including the markup of legislation, of the committee or each subcommittee thereto shall be open to the public except when the committee or subcommittee, in open session and with a quorum present, determines by roll call vote that all or part of the remainder of the meeting on that day shall be closed to the public: *Provided, however:* That no person other than members of the committee and such congressional staff and such departmental representatives as they may authorize shall be present at any business or markup session which has been closed to the public. This paragraph does not apply to subparagraph (2) of this paragraph, or to any meeting that relates solely to internal budget or personnel matters.

(2) Each hearing conducted by the committee or each subcommittee thereof shall be open to the public except when the committee or subcommittee, in open session and with a quorum present, determines by roll call vote that all or part of the remainder of that hearing on that day shall be closed to the public because disclosure of testimony, evidence, or other matters to be considered would endanger the national security or would violate any law or rule of the House of Representatives: *Provided, however,* That the committee or subcommittee may by the same procedure vote to close one subsequent day of hearing.

Rule No. III— *Records and Roll Calls*

There shall be kept in writing a record of the proceedings of the committee and of each subcommittee, including a record of the votes on any question on which a roll call is demanded. The result of each such roll call vote shall be made available by the committee for inspection by the public at reasonable times in the offices of the committee. Information so available for public inspection shall include a description of the amendment, motion, order or other proposition and the name of each member voting for and each member voting against such amendment, motion, order, or proposition, and the names of those members present but not voting. A record vote may be demanded by one-fifth of the members present or, in the apparent absence of a quorum, by any one member. With respect to each record vote by the committee to report any bill or resolution, the total number of votes cast for and the total number of votes cast against the reporting of such bill or such resolution shall be included in the committee report.

Rule No. IV— *Quorums*

A majority of the members of the committee shall constitute a quorum of the committee for business and a majority of the members of any subcommittee shall constitute a quorum thereof for business: *Provided,* That any two members shall constitute a quorum for the purpose of taking testimony and receiving evidence.

Rule No. V— *Hearing Procedures*

(a) The chairman, in the case of hearings to be conducted by the committee, and the appropriate subcommittee chairman, in the case of hearings to be conducted by a subcommittee, shall make public announcement of the date, place, and subject matter of any hearing to be conducted on any measure or matter at least one week before the commencement of that hearing unless the committee determines that there is good cause to begin such hearing at an earlier date. In the latter event, the chairman or the subcommittee chairman, whichever the case may be, shall make such public announcement at the earliest possible date. The clerk of the committee shall promptly notify the Daily Digest Clerk of the Congressional Record as soon as possible after such public announcement is made.

(b) So far as practicable, each witness who is to appear before the committee or a subcommittee shall file with the clerk of the committee, at least 48 hours in advance of his or her appearance, a written statement of his or her proposed testimony and shall limit his or her oral presentation to a summary of the statement.

(c) When any hearing is conducted by the committee or any subcommittee upon any measure or matter, the minority party members on the committee shall be entitled, upon request to the chairman of a majority of those minority members before the completion of such hearing, to call such witnesses selected by the minority to testify with respect to that measure or matter during at least one day of hearing thereon.

(d) All other members of the committee may have the privilege of sitting with any subcommittee during its hearing or deliberations and may participate in such hearings or deliberations, but no such member who is not a member of the subcommittee shall vote on any matter before such subcommittee.

(e) Committee members may question witnesses only when they have been recognized by the chairman for that purpose, and only for a 5-minute period until all members present have had an opportunity to question a witness. The five-minute period for questioning a witness by any one member can be extended only with the unanimous consent of all members present. The questioning of witnesses in both full and subcommittee hearings shall be initiated by the chairman, followed by the ranking minority party member and all other members alternating between the majority and minority. In recognizing members to question witnesses in this fashion, the chairman shall take into consideration the ratio of the majority to minority members present and shall establish the order of recognition for questioning in such a manner as not to disadvantage the members of the majority.

Rule No. VI— *Oversight*

(a) In order to assist the House in:

(1) Its analysis, appraisal, and evaluation of (A) the application, administration, execution, and effectiveness of the laws enacted by the Congress, or (B) conditions and circumstances which may indicate the necessity or desirability of enacting new or additional legislation, and

(2) its formulation, consideration and enactment of such modifications or changes in those laws, and of such additional legislation, as may be necessary or appropriate, the various subcommittees, consistent with their jurisdiction as set forth in Rule VIII, shall have oversight responsibilities as provided in paragraph (b).

(b) Each subcommittee shall review and study, on a continuing basis, the application, administration, execution, and effectiveness of those laws, or parts of laws, the subject matter of which is within the jurisdiction of that subcommittee, and the organization and operation of the Federal agencies and entities having responsibilities in or for the administration and execution thereof, in order to determine whether such laws and the programs thereunder are being implemented and carried out in accordance with the intent of the Congress and whether such programs should be continued, curtailed, or eliminated.

In addition, each such subcommittee shall review and study any conditions or circumstances which may indicate the necessity or desirability of enacting new or additional legislation within the jurisdiction of that subcommittee (whether or not any bill or resolution has been introduced with respect thereto), and shall on a continuing basis undertake future research and forecasting on matters within the jurisdiction of that subcommittee.

(c) Each subcommittee shall review and study on a continuing basis the impact or probable impact of tax policies affecting subjects within its jurisdictions.

Rule No. VII— *Broadcasting of Committee Hearings*

Broadcasting, either by radio or TV of all open committee hearings and meetings shall be permitted when, in the judgment of the chairman, in consultation with the ranking minority member, such action is warranted. Photographs shall be permitted during hearings of the full committee and subcommittees as the chairman decides.

All coverage shall be subject to the following provisions:

(1) If the television or radio coverage of the hearing or meeting is to be presented to the public as live coverage, that coverage shall be conducted and presented without commercial sponsorship.

(2) No witness served with a subpoena by the committee shall be required against his or her will to be photographed at any hearing or to give evidence or testimony while the broadcasting of that hearing, by radio or television, is being conducted. At the request of any such witness who does not wish to be subjected to radio, television, or still photography coverage, all lenses shall be covered and all microphones used for coverage turned off.

(3) Not more than four television cameras, operating from fixed positions, shall be permitted in a hearing or meeting room. The allocation among the television media of the positions of the number of television cameras permitted in a hearing or meeting room shall be in accordance with fair and equitable procedures devised by the Executive Committee of the Radio and Television Correspondents' Galleries.

(4) Television cameras shall be placed so as not to obstruct in any way the space between any witness giving evidence or testimony and any member of the committee or the visibility of that witness and that member to each other.

(5) Television cameras shall not be placed in positions which obstruct unnecessarily the coverage of the hearing or meeting by the other media.

(6) Equipment necessary for coverage by the television and radio media shall not be installed in, or removed from, the hearing or meeting room while the committee is in session.

(7) Floodlights, spotlights, strobelights, and flashguns shall not be used in providing any method of coverage of the hearing or meeting, except that the television media may install additional lighting in the hearing or meeting room, without cost to the Government, in order to raise the ambient lighting level in the hearing or meeting room to the lowest level necessary to provide adequate television coverage of the hearing or meeting at the then current state of the art of television coverage.

(8) Not more than five press photographers shall be permitted to cover a hearing or meeting by still photography. In the selection of these photographers, preference shall be given to photographers from Associated Press Photos and United Press International Newspictures. If request is made by more than five of the media for coverage of the hearing or meeting by still photography, that coverage shall be made on the basis of a fair and equitable pool arrangement devised by the Standing Committee of Press Photographers.

(9) Photographers shall not position themselves, at any time during the course of the hearing or meeting, between the witness table and the members of the committee.

(10) Photographers shall not place themselves in positions which obstruct unnecessarily the coverage of the hearing by the other media.

(11) Personnel providing coverage by the television and radio media shall be then currently accredited to the Radio and Television Correspondents' Galleries.

(12) Personnel providing coverage by still photography shall be then currently accredited to the Press Photographers' Gallery.

(13) Personnel providing coverage by the television and radio media and by still photography shall conduct themselves and their coverage activities in an orderly and unobtrusive manner.

Rule No. VIII— *Number and Jurisdiction of Subcommittees*

(a) There shall be five standing subcommittees as follows: Oversight and Investigations; Hospitals and Health Care; Education, Training and Employment; Compensation, Pension and Insurance; and Housing and Memorial Affairs. Oversight and Investigations. All proposed legislation and other matters related to the subcommittees listed under standing subcommittees named below shall be referred to such subcommittees, respectively:

Oversight and Investigations: Investigative authority over matters that are referred to the subcommittee by the chairman of the full committee for investigation and appropriate recommendations.

Hospitals and Health Care: Veterans' hospitals, medical care, and treatment of veterans.

Education, Training, and Employment: Education of veterans, vocational rehabilitation, and readjustment of servicemen to civilian life.

Compensation, Pension, and Insurance: Compensation, pensions of all the wars of the United States, general and special, and life insurance issued by the Government on account of service in the Armed Forces.

Housing and Memorial Affairs: Veterans' housing programs, and cemeteries of the United States in which veterans of any war or conflict are or may be buried, whether in the United States or abroad, except cemeteries administered by the Secretary of the Interior, and burial benefits.

(b) The chairman and the ranking minority member shall serve as ex-officio members of all subcommittees and shall have the right to vote on all matters before the subcommittee.

Rule No. IX— *Powers and Duties of Subcommittees*

(a) Each subcommittee is authorized to meet, hold hearings, receive evidence, and report to the full committee on all matters referred to it or under its jurisdiction. Subcommittee chairmen shall set dates for hearings and meetings of their respective subcommittees after consultation with the chairman and other subcommittee chairmen with a view toward avoiding simultaneous scheduling of full committee and subcommittee meetings or hearings wherever possible.

(b) Whenever a subcommittee has ordered a bill, resolution, or other matter to be reported to the committee, the chairman of the subcommittee reporting the bill, resolution, or matter to the full committee, or any member authorized by the subcommittee to do so, may report such bill, resolution, or matter to the committee. It shall be the duty of the chairman of the subcommittee to report or cause to be reported promptly such bill, resolution, or matter, and to take or cause to be taken the necessary steps to bring such bill, resolution, or matter to a vote.

(c) In any event, the report of any subcommittee on a measure which has been approved by the subcommittee shall be filed within seven calendar days (exclusive of days on which the House is not in session) after the day on which there has been filed with the clerk of the committee a written request, signed by a majority of the members of the subcommittee, for the reporting of that measure. Upon the filing of any request, the clerk of the committee shall transmit immediately to the chairman of the subcommittee notice of the filing of that request.

[1] Including 4 bills enacted as amendment to other legislation; 1 left in House when similar Senate bill returned to Senate; and 1 similar to another bill enacted (Public Law 87-645).

[2] Includes 2 bills enacted as amendments to other bills.

[3] Includes 1 bill enacted as amendment to another bill.

[4] Some laws include the substance of more than 1 bill reported separately. 39 separately reported bills were enacted, 7 as amendments to other legislation.

[5] Provisions of 3 of these bills were passed by the House as separate bills, and the provisions of 1 bill were included as an amendment to another bill which became public law.

[6, 7] One bill in a Senate committee had purpose accomplished administratively; 5 other were enacted as sections of another bill; and portions of 1 bill left in the House were enacted as part of another bill.

[8] Includes S.J. Res. 197 making technical correction to law, which was brought to House floor for immediate consideration and passed by unanimous consent.

[9] The difference in number of bills reported (14) and laws enacted (15) is due to fact that S. 3705 did not go to the House Committee. However, the subject matter was included in H.R. 12628.

[10] Includes H.R. 9576 subject matter of which was contained in S. 969, passed in lieu.
